### **Barnes Pipe and Steel Supply Chooses Bayern's STEEL PLUS Software**

Phoenix, AZ – Bayern Software, a leading software solutions developer for metal service centers and distributors, has announced that Barnes Pipe and Steel Supply of Dupou, Illinois has chosen STEEL PLUS as their complete business system to provide inventory control, sales, purchasing, accounting functions, document imaging, and more. Bayern Software has also agreed to make custom modifications to STEEL PLUS to assist Barnes Pipe with their unique sales and marketing methodologies.

Barnes Pipe and Steel Supply has been using business software that is not designed for the metals industry. They will utilize STEEL PLUS to improve inventory control, sales, purchasing and to add additional efficiency to all departments.

Greg Bayer, President of Bayern Software stated "we are excited that Barnes Pipe and Steel Supply has selected STEEL PLUS and that the customizations we will be making for them will help them continue to grow their business for many years to come".

#### **About Bayern Software**

Headquartered in Phoenix, Arizona, Bayern Software has been a market leader in the development of specialty software for metal service centers and distributors for 25 years. Bayern's software products are actively used by over 325 North American service centers and distributors. Bayern provides accounting, inventory control, sales, purchasing, document imaging, labor tracking, and barcoding software solutions to the metals industry.

Using a unique approach, Bayern has succeeded in bringing to market robust applications that work equally well for flat rolled products, plate, general line, structural products, tool steel, and specialty service centers. For more information, please visit [www.bayernsoftware.com](http://www.bayernsoftware.com) or call Bayern Software at (623) 298-5228.

#### **About PMI Steel Pipe & Supply**

Barnes Pipe & Steel Supply was founded in 1990. Since its inception Barnes Pipe staff has strived to provide unparalleled quality and service to our clients, challenging career opportunities for our staff and an environment of trust and mutual respect with our vendors. This has allowed us to buy direct from mills, lower our costs at fabricating facilities, and contract with trucking companies to lower expenses, thus passing on savings to our customers. Through the years we have expanded our product line to serve the Building and Construction Industry as well as the Heavy Construction industry.

Barnes Pipe & Steel Supply is centrally located in Dupou, Illinois. We are just 10 miles south of Downtown St Louis, Missouri, across the mighty Mississippi River.
