

Bayern Email/Report Viewer

Easily Email Any Printable Document Directly From STEEL PLUS

OVERVIEW

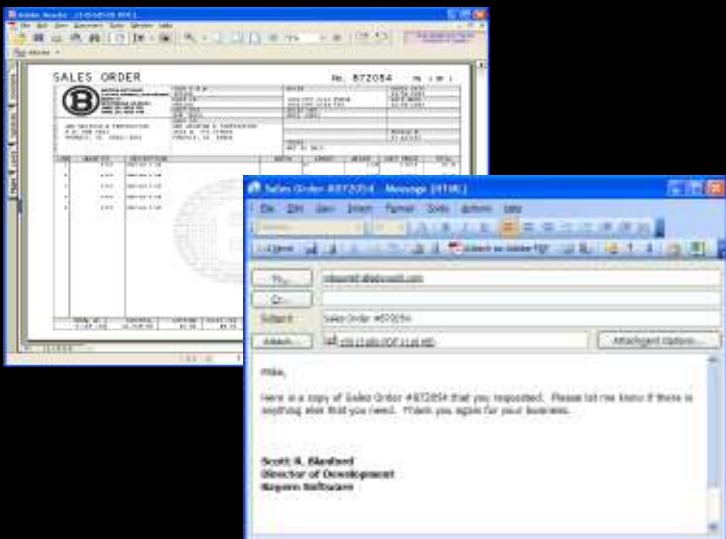

Bayern Software has brought PDF report viewing and Outlook email functionality to STEEL PLUS.

The Email/Report Viewer allows you to view all reports in a portable document format (pdf) that can be saved, printed, or just viewed on screen.

Viewing reports on screen allows the preview of reports and orders without the paper waste. These reports can also be saved and archived to disk, thus reducing office clutter.

The included email capability allows you to send these pdf formatted documents as email attachments through our Microsoft Outlook email interface (Outlook 2003 or higher is required).

When a customer calls in an order or requests a copy of an invoice, you can simply email them a copy! Overall, the Bayern Email/Report Viewer allows you and your employees to work more efficiently and effectively.

POWERFUL FEATURES

The Bayern Email/Report Viewer makes life easier for every user of STEEL PLUS. You now have the power to view and email any printable document in STEEL PLUS. Imagine being able to easily complete the following tasks:

- Review a complete order on screen as a PDF
- Quickly Email quotes and orders to customers
- Email MTRs to your customers (requires Bayern Imaging software)
- Email purchase orders to vendors
- View large reports on screen without wasting time and paper
- Automatically email invoices in batch to all customers who prefer email!

REQUIREMENTS

The Bayern Email/Report Viewer requires the following:

- STEEL PLUS v13.70 or higher
- Classic v7.74 or higher
- Liant's Windows Runtime
- Adobe Acrobat Reader v5.0 or higher (available as a free download)
- Microsoft Outlook 2003 or higher
